

Mothers Report Card

Mothers Against Greg Abbott, Mothers Report Card is a comprehensive overview of Texas State Legislature Votes. In our unwavering commitment to transparency, accountability, and the voices of everyday Texans, we present a powerful tool that empowers citizens to become informed advocates for their communities. The legislative process can often seem complex and opaque, leaving constituents searching for ways to hold their elected officials accountable. Our scorecard is designed to bridge this gap, offering a clear and concise assessment of how legislators have voted during this session. By distilling the intricacies of legislative decisions into an accessible format, we aim to provide a straightforward resource that allows every Texan to see if their representatives have aligned actions with promises, ensuring that democracy remains strong, vibrant, and responsive to the needs of those it serves.

Our Methodology

- Grades in the A range: legislators who proactively led in the designated area by authoring or co-authoring multiple good legislative proposals with positive votes on at least of the 90% tracked legislation in the designated area. Identifies as a champion in the designated area.
- Grades in the B range: legislators who had positive votes on at least 80% of the tracked legislation in the designated area; and authored/co-authored 0-1 good bill in the designated area.
- Grades in the C range: legislators who had a mixed record (at least 70%). They voted positive on some legislation and negative on others in the designated area.
- Grades in the D range: legislators who voted negatively on MOST tracked bills in the designated area but did not author/co-author any negative legislation in the designated area.
- Grades in the F range: legislators who authored one or more negative bills in the designated area.

Remarks & Recommendations:

Senator Zaffirini is a legend in the Senate Chamber and this year she set a record with 70 straight votes. She is always prepared and usually first to turn in legislation each session. She voted for 4 anti-public education bills HB3, HB5, HB 621 and SB 9. She did write several pro-education bills. She also passed a lot of great bills on BOTS but we are not measuring jobs and marketplace bills in this round. She also passed HB 59 in the Senate which helps prevent accidental drownings for children who cannot wear a life jacket during water activities. She also wrote bills on health care and criminal justice. While she voted for a lot of great healthcare legislation she didn't author any bill supporting a woman's right to choose.

Remarks & Recommendations:

Senator Whitmire was the only Democrat to serve as a chair this legislative session. He is the chair over the Senate Criminal Justice Committee. He did vote for two anti public education bills HB3 and HB 5 and he wrote zero bills on education this session. And he voted for several anti-energy and environment bills. Senator Whitmire is now running for Houston Mayor and he used his committee chairmanship to practice his Mayoral candidate speeches so he could be seen as the tough on crime mayor of Houston. We wish he would have made bigger bolder progressive moves in his last legislative session.

Senator West did vote the right way on the LGBTQ bills but he was tempted to vote against LGBTQ Bills. We are happy to have his support for the LGBTQ community. In public education he voted for 3 anti-public ed bills HB 3, HB 5 and HB 621. He did author several pro-education bills. He voted to let the border patrol use the power to arrest, search and seize for state criminal offenses. All the Democrats voted to do this.

In a different Senate not riddled with culture war issues he could really lead on so many issues that would bring out the best in him and really help Texans. Senator Robert Nichols like Senator Perry want to write good bills and legislation for all Texans. He knows that good legislation comes from both sides working together for change and making good impactful improvements for all Texans. In a chamber not headed by Dan Patrick, he could be the leader he wants to be. He can set the tone for a new era in the Texas Senate and we hope he sticks it out after Patrick is gone so we can see him shine a little. He knows vouchers are bad for Rural Texas and was the only Republican Senator to vote against SB8 the Voucher Bill.

Senator Middleton did pass one bill that supported the Santa Fe families and gave them rights to see the autopsy reports for their children. He wrote the bill banning Trans Athletes. Texas doesn't currently have any trans athletes playing in college sports. So he spent a lot of time on an issue for a situation we currently do not have. It should have been left to the governing body over college sports, the National Collegiate Athletic Association. But this is about control and big government.

When Senator Kolkhorst killed a lot of bills that could have been a huge difference in the lives of Texans like expanding Medicaid. But it was her bill on DEI that negatively impacts people of color and equality that concern us the most. Her bill that would limit who can buy property would have punished innocent people, dual citizens and legal residents who believe in democracy. She is no fan of renewable energy and voted to punish green energy providers instead of helping them. We hope Senator Kolkhorst travels around the world and opens her mind a little.

Senator Nathan Johnson is one of the Pack of Four in the Senate who is a solid leader. He upholds Democratic values and policies while looking forward. He worked very hard this session on issues around the Grid. His low score on the border reflects that he didn't write any legislation on border issues. That's just not one of his areas of focus right now. He also didn't write any bills supporting the LGBTQ community. He's one to watch through and we are looking forward to see him next legislative session.

Hughes does not support women's rights or LGBTQ Rights, so why not just make voting harder while he's at it. Because of him and SB 1070 Texas is leaving ERIC (Electronic Registration Information Center). ERIC is an effective tool to ensure safe and accurate elections. There was no real reason to leave ERIC other than to create a new system to cost taxpayers more money and make it easier to cheat.

But at least this bill that Rep. Donna Howard has written for the last 3 sessions, has now been made relevant and passed. Senator Huffman passed the law punishing DA's who do not prosecute certain offenses further diminishing local rule for Big Government. She is the chair of the Finance committee and wouldn't even give a hearing for the bill that would have put a/c in Texas prisons. Over 20 prisoners have died due to heat related reasons this summer.

Rep. Smithee voted very similarly to most Republicans this session. However, he did vote against expanding Medicaid to 12 months post-pregnancy. He voted against making it easier for disabled Texans to vote. And he voted against the bill authored by Rep. Bhojani that would allow students to not test on their religious holidays. Finally, Rep. Smithee is one of 24 Texas House reps who voted against impeaching Ken Paxton.

Remarks & Recommendations:

Rep. Ordaz is an advocate for Gun Safety. With triple digit heat across the state for much of the summer, we'd like to see less subsidies for gas-fueled power plants and more support for renewable energy. In addition, she voted to make "illegal" voting a felony and she voted to allow state officials to take over Harris County elections. In addition, she voted for HB900 - the book banning bill.

Rep. Oliverson voted in lockstep with most Republicans in the areas that we tracked. He voted against HB5, the corporate welfare bill that attracts investment into Texas at the expense of our public schools. But he voted against making it easier for disabled Texans to vote, the tampon tax bill, and Rep Bhojani's bill that would allow students to be exempted from testing on their religious holidays. His F's reflect that he wrote multiple bad bills in all the areas that we tracked except Environment/Energy.

Remarks & Recommendations:

Rep. Leach has held strong through the Ken Paxton hearings and voted to impeach A.G. Ken Paxton. He brought one of the funniest moments this Lege session when he was trolled to say fake names during committee hearings. He voted for no permit carry during the last legislative session and this time he voted for three pro-gun bills. Rep. Leach also had a mass shooting in his district but one does not sense it has impacted him to fight for tougher gun regulations.

Rep. Tracy King is not running for re-election. He did write the Raise the Age Bill for Uvalde and his A grade reflects that. Thank you Rep. King. However he voted against drag shows, gender affirming care and voted to ban trans athlete's from playing college sports. He didn't author any anti-LGBTQ legislation. Rep King also voted in favor of HB 7 Institutionalizing the arrest, prosecution and jailing of asylum seekers. He voted for SB 602 giving Border Patrol the authority to arrest asylum seekers for state criminal offenses including trespass across the river. And SB1403 providing further funds for the border wall. He voted for anti-public education bills HB3, HB5, HB621, HB900, and SB 763. He did author one Pro Public ed bill and that is saving him from an F in education. He's also anti-voucher.

Remarks & Recommendations:

Rep. Hayes is one of the two votes in the Ken Paxton impeachment that voted Present not voting. He wrote two pro-energy/environment bills but that's the only thing that is saving him from and F in Energy/Environment. voted against Rep. Bhojani's bill to allow students to avoid testing on their religious holy days.

Rep. Geren did an amazing job on the General Investigating Committee, both to impeach Ken Paxton and expel Bryan Slaton. In addition, he was one of 24 Republicans who voted for the Herrero amendment, which prohibits the use of public funding for school vouchers. For the most part, he didn't author or co-author culture war bills. It looks like Rep. Geren is one that can work across the aisle to get things done for the people of Texas.

Remarks & Recommendations:

Rep. Davis is a solid Democrat fighting for public education, LGBTQ rights and Gun Safety. Unfortunately, she voted for SB7, a bill that provides incentives to give gas-fueled power plants more money, kneecapping renewable energy. We are hopeful that she will champion clean energy in the next session.

Rep. Angie Button surprised us. She has the potential to do so much good based on her committee chair appointment. She is smart, with a background in accounting and marketing. And you can tell she wants to do the right thing and vote on real issues and not culture war issues. But she caves to the rest of the party every time. Like when she didn't give the Bi-partisan paid parental leave bill a hearing. Unfortunately this move is why Texans cannot have nice things. Remarks & Recommendations:

Rep. Bell authored the Don't say Gay bill. He is no friend of the LGBTQ community. Rep. Bell is one of 24 Republicans who voted for the Herrero amendment, which prohibits public funds being used for school vouchers. Just like most Republicans, he voted for the culture war issues in public education - arming guards in schools, banning books, etc. He is one of the few Reps that voted against the tampon tax. And he authored or co-authored a total of 8 anti-women bills.

Remarks & Recommendations:

Rep. Cecil Bell is one of 24 Texas House Reps who voted NOT to impeach Ken Paxton. His voting record is consistent with how the majority of Republicans voted in the House. However, he is one of the few reps who voted against Rep. Bhojani's bill that would take into consideration non-Christian religious holidays and exempt those students from testing.

Rep. Ashby is one of 24 Republicans who voted for the Herrero amendment, which prohibits public funds being used for school vouchers. Just like most Republicans, he voted for the culture war issues in public education - arming guards in schools, banning books, etc. In a break from his fellow Republicans (and several Democrats), Rep. Ashby did not vote to subsidize gas power plants. However, he is one of the few reps who voted against Rep. Bhojani's bill that would take into consideration non-Christian religious holidays and exempt those students from testing.

Rep. Anderson is one of 24 Texas House Reps who voted NOT to impeach Ken Paxton. He not only consistently voted for culture war issues, he also authored or co-authored bad bills in every single area we were tracking. He was also one of the few Republicans who voted against making it easier for disabled Texans to vote.

Remarks & Recommendations:

Rep. Anchia raised a very clever point of Order against HB 20 the "Border Protection Unit" bill which was returned to the committee on State Affairs never to return for a vote by the House. HB 20 would have created a state border police force and a felony border trespassing charge to further Texas' controversial "arrest and jail" approach which sends asylum seekers off to face state charges and end up in state prisons. With triple digit heat this summer, we'd like to see more support for renewable energy and less support for subsidizing gas power plants.

Remarks & Recommendations:

Rep. Allison is an avid supporter of public education, however this year there were a lot of culture war bills in public education. So his F reflects the book ban and LGBTQ sports ban bills. Both of which he voted for. Rep. Allison also supported HB17, which supports taking away local DA's discretion to prosecute crimes. Rep. Allison is one of the kindest humans at the Capitol Building. He helps others in the building and he can lead on brave politics. Rep. Allison is beloved by many Democrats and Republicans alike.

Remarks & Recommendations:

Representative Alma Allen is a member of the Education Committee and a champion of Public Education. She is sharp. She gave one of the best comebacks to Rep. Harrison we have ever heard. Rep. Allen put Harrison in his place and we knew at that moment that she is an American HERO! She has also worked hard this session fighting back against the state take over of Houston ISD. The low score on border is because she voted for SB 602 which gives Border Patrol authority to arrest asylum seekers for state and criminal offenses including trespassing across the river and she voted for SB1403 providing further funds for the border wall. And with triple digit heat for weeks on end, we'd like to see less subsidies for gas-fueled power plants and more support for renewable energy.
