

Mothers Against Greg Abbott started with one mom, Nancy Thompson, holding a sign in front the Texas Capitol. From humble beginnings, a movement blossomed: first, in 2021, as a Facebook group to connect others who felt the same way as Nancy, which then evolved to the Mothers Against Greg Abbott PAC. After doing significant work during both elections and legislative sessions, the group has grown to **200,000+ community members** strong. Mothers Against Greg Abbott is fighting for positive change for the families of the Lone Star State.

What started as a one-mom stand against Greg Abbott's disastrous "leadership" in the face of the Texas Freeze in 2021, Mothers Against Greg Abbott has grown and expanded as an activist and advocacy organization. We are pushing back against the erosion of reproductive rights, anti-LGBTQ+ policies, and attacks on public schools and book bans, among other issues. In the spirit of solidarity that transformed a single person protest into a force for real change, we're galvanizing mothers (and others) across Texas in the fight for justice and equality.

- **OUR GOALS**
- * Advocating for **common sense gun safety laws**
 - * Supporting access to **high-quality education**
 - * **Protecting our planet** for future generations
 - * Advocating for women's **reproductive freedom**
